

the mobile agent - fact sheet

When you visit a property to take a valuation it's business as usual. Using The Mobile Agent as you move round the property, in just a few minutes you have a set of floor plans and a full property description, all with no typing or dictation. A Pocket PC running The Mobile Agent becomes a real talking point when you visit the vendor, and they love seeing a floor plan created before their eyes.

Upon entering a room simply measure it as you do presently, enter the information into The Mobile Agent on your Pocket PC using the stylus, add symbols for the doors, windows, stairs and room fittings. Once you have visited each room, a glance at The Mobile Agent's screen will show you a complete floor plan of the house. What's more each room has a comprehensive description attached to it, all produced with perfect English grammar.

In the competitive market place, getting listings and giving purchasers what they want is all important. Do you really want to have to wait for floor plans? What's more, do you want to pay for every floor plan you use?

With The Mobile Agent, waiting for floor plans and paying for each one are a thing of the past. When you return to the office simply synchronise your Pocket PC to your desktop or laptop, drop the floor plans and descriptions into Microsoft Word or your own estate agency system and you have a set of particulars ready for your vendor. A full set of particulars with floor plans produced the same day, with no additional costs - that's why over 3500 estate agents across the UK use The Mobile Agent.

You can also buy a desktop PC version of The Mobile Agent, meaning you or a colleague can edit and modify the floor plans on any desktop PC.

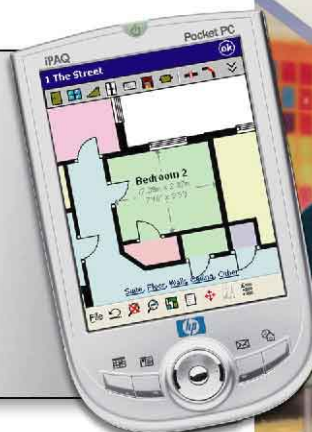

Vendors love floor plans, and they like it even more when you visit their house with a Pocket PC running The Mobile Agent. Seeing you produce a floor plan becomes a real talking point, and is memorable too.

Many vendors list their properties with multiple agents. If your details have floor plans and the other agents don't, you increase the chance of purchasers using your agency to view and buy the property. It's as simple as that. Finally you will save money - no more paying and waiting for floor plans. If that doesn't convince you, why not download our demo version to see for yourself.

DOWNLOAD THE DEMO

Try The Mobile Agent for yourself using the demo version. It has all the features of the normal version of The Mobile Agent, with only the save and print functions being disabled. What's more it runs on a desktop PC!

packages & prices

The Mobile Agent for Pocket PC and Desktop Bundle

£649.90*

This package contains both versions of The Mobile Agent software with a discount for buying them together at the same time.

Create a floorplan and description on your Pocket PC (not supplied) whilst at the property. Once back at the office, the desktop PC software allows you (or your secretary) to quickly amend the floorplans that were created on your Pocket PC, create floorplans from scratch and save floorplans in additional file formats such as JPEGs. It is also invaluable as a training tool for new users with its range of built in tutorials.

A package put together for maximum user convenience and flexibility. Comprises The Mobile Agent software for the Desktop PC (single user licence) and The Mobile Agent software for the Pocket PC (single user licence).

The Mobile Agent for Pocket PC

£449.95*

The Mobile Agent software for Pocket PC allows you to create a floorplan and description on your Pocket PC (not supplied) whilst at the property. Once back at the office the finished floorplan picture files and Word description files are transferred to your desktop PC for insertion into your office details or back office system.

The Mobile Agent for Desktop PC

£449.95*

The desktop/tablet/laptop PC version can be used as a stand alone product to create floorplans from scratch, for those agents who prefer to sketch the property and then create the floorplans back at the office, or it can be used to open and amend property files that have been created on the Pocket PC software (ideal if the vendor asks for changes once the property is on the market).

*For international pricing please visit our website. All prices exclude VAT.

specifications & requirements

File Output Types

Floorplans are produced as WMF picture files on both the Pocket PC & Desktop PC versions and additionally produced as JPEGs and PNGs on the Desktop version.

Descriptions are produced as Microsoft Word documents and as XML files in both versions.

System requirements - Pocket PC software

The Mobile Agent software runs on any Pocket PC with at least 32MB of RAM (64MB recommended) and which uses one of the following Pocket PC operating systems:

- Windows Mobile 2003 or Windows Mobile 5.

We currently only support Pocket PCs with screen resolutions of 320 x 240 (known as QVGA). We will be supporting Pocket PCs with screen resolutions of 640 x 480 (VGA) very soon.

System requirements - Desktop, Laptop or Tablet PC

- Microsoft Windows 2000 or XP. We highly recommend Windows XP.
- PC with 600 megahertz (MHz) or higher processor clock speed recommended.
- 128 megabytes (MB) of RAM or higher recommended.
- Super VGA (800 x 600) or higher resolution video adapter, running at 96dpi.
- Internet connection (for authorisation and updates).
